STATE CLEARINGHOUSE

---

# NEWSLETTER

**January 16 through 31, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **January 16 through 31, 2001**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Please visit the OPR webpage for energy saving ideas and information on California's energy challenge. [www.opr.ca.gov](http://www.opr.ca.gov)

# Federal Notices

## **Intergovernmental Review Notices (January 15 - 31, 2001)**

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** U.S. Department of the Interior - Bureau of Reclamation

**CONTACT:** Stan Yarbrough

**TELEPHONE:** (916) 978-5516

**E-MAIL:** N/A

**ADDRESS:** Bureau of Reclamation, Mid-Pacific Regional Office, 2800 Cottage Way, Sacramento, CA 95825

**DESCRIPTION:** Reclamation has completed negotiations on refuge water supply contractual agreements with the California Department of Fish and Game, Grassland Water District (representing the Grassland Resource Conservation District), and Memorandum of Understanding with the U.S. Fish and Wildlife Service as part of the Central Valley Project Improvement Act. Reclamation has also released final Environmental Assessments with corresponding Finding of No Significant Impact statements for the Sacramento River Basin, San Joaquin River Basin, and Tulare Lake Basin addressing impacts associated with the Federal action of entering into these long-term water supply contractual agreements. The contracts and MOUs will provide long-term water supplies (up to 25 years) to specified State wildlife areas, private wetlands in the Grassland Resource Conservation District, and the National Wildlife Refuge System in the Central Valley of California. The contractual agreements and environmental documents are available on-line at [www.mp.usbr.gov/cvpia/refuge](http://www.mp.usbr.gov/cvpia/refuge).

**AGENCY:** U.S. Department of the Interior - Fish and Wildlife Service

**CONTACT:** Patricia Foulk

**TELEPHONE:** (916) 414-6566

**E-MAIL:** N/A

**ADDRESS:** U.S. Fish and Wildlife Service, Sacramento Fish and Wildlife Office, 2800 Cottage Way, Room W-2605, Sacramento, CA 95825

**DESCRIPTION:** On January 12, 2001, the U.S. Fish and Wildlife Service announced the reopening of the comment period regarding the threatened status for the Sacramento splittail, a fish found only in streams I California's Sacramento-San Joaquin Delta and Central Valley. Under the Endangered Species Act, the Splittail was listed as threatened on February 8, 1999. A silvery-gold member of the minnow family, the splittail can grow up to 16 inches long and live up to 7 years. Splittail populations have declined 33 percent in the last 20 years as dams and diversions prevented fish from access to upstream areas of large rivers. The Service is seeking information on the splittail's status, abundance and distribution. In addition, they are seeking input on the relationship between the data available and the listing on the species as threatened. The Service welcomes comments on these issues until February 12, 2001. Information should be sent to the Field Supervisor at the above address.

**TELEPHONE:** (202) 219-2806

**E-MAIL:** N/A

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426

**DESCRIPTION:** The FERC filed a Notice of Application Accepted for Filing and Soliciting Motions to Intervene, Protests and Comments on January 11, 2001 for Rock Creek Diversion Dam Project (project). The project is located on the North Fork Feather River in Plumas County, California and would utilize no federal lands. The project applicant is Davis Hydro. The project would consist of: (1) the existing 550-foot-long, 126-foot-hihg Rock Creek Diversion Dam; (2) the existing reservoir having a surface area of 80 acres and a storage capacity of 4,669 acre-feet and a normal water surface elevation of 2,216 feet msl; (3) a proposed intake; (4) a proposed powerhouse containing three generating units having a total installed

capacity of 900 kW; (5) a proposed 1,300-foot-long 60 kV transmission line; and (6) appurtenant facilities. The project would have an annual generation of 6 GWh that would be sold to a local utility.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE,  
Washington, DC 20426

**DESCRIPTION:** The FERC filed a Notice of Application for Amendment of License and Soliciting Comments, Motions to Intervene, and Protests on January 11, 2001 for the Big Creek Nos. 2A, 8 & Eastwood Power Station Project (project). The project is located on the South Fork San Joaquin River and Big Creek in Fresno County, California and utilizes lands of the Sierra National Forest. The applicant, Southern California Edison Company (SCE), proposes to remove 1.7 miles of transmission line from Big Creek #2A-Big Creek #8, and 5.6 miles of transmission line from Big Creek #8-Big Creek #3 from the project's license since they are part of the SCE's Transmission System Network. SCE's proposed modifications would reduce the amount of federal lands used by the project by 158.4 acres.

**DESCRIPTION:** The FERC filed a Notice of Application Accepted for Filing and Soliciting Motions to Intervene, Protests, Comments, Recommendations, and Terms and Conditions on January 11, 2001 for Diamond Valley Lake Small Conduit Hydroelectric Project (project). The project is located in Riverside County, California in the Wadsworth Pumping Plant and would utilize water from Diamond Valley Lake. The California Aqueduct will be a source of water from the Lake by gravity flow, when construction of the Inland Feeder pipeline is complete. The project would utilize no federal lands. The project applicant is the Metropolitan Water District of Southern California. The project would consist of modifying the 12 existing pumps in the Wadsworth Plant to operate in a reverse turbine-generating mode. The average annual generation would be 30 gigawatt hours.

**DESCRIPTION:** In a letter dated January 16, 2001, from FERC to Wayne White of U.S. Fish and Wildlife Service (USFWS)-Sacramento Fish and Wildlife Office, FERC requested a formal response to its August 30, 2000 request for concurrence with the conclusion that relicensing the Hat Creek Project with staff recommended measures is "not likely to adversely affect" the Shasta crayfish and the bald eagle. On October 23, 2000, USFWS staff informed FERC staff that FERC's request had been overlooked and that a response would be provided within 30 days. In the January 16 letter, FERC stated that the formal response had not been received. The letter also stated that if USFWS does not concur, that USFWS should consider this a request to initiate formal consultation which would require issuance of its biological opinion within 135 days of receipt of this letter.

Washington, DC 20426

**DESCRIPTION:** The FERC on January 16, 2001 issued an Order Amending Article 77 of the license for the Yuba-Bear Project. The Nevada Irrigation District (licensee) filed the request to amend or delete Article 77 (which states in part that the licensee shall not use pesticides or herbicides on National Forest System Lands for any purpose without prior approval of the U.S. Forest Service) on September 6, 2000. The FERC agrees that it should not be necessary to submit an annual pesticide and herbicide use plan, since the use of these substances is not allowed by the USFS and the licensee uses only hand and mechanical methods to control and remove vegetation at the project. Project No. 2266-075.

**ADDRESS:** Federal Energy Regulatory Commission, 888 First Street, NE,  
Washington, DC 20426

**DESCRIPTION:** Project No. 2100-CA. The FERC has approved the California Department of Water Resource's (DWR's) request to use alternative procedures in filing a license application for its Oroville Hydroelectric Project. DWR stated that their experience with the alternative licensing process does show that the enhanced participation can be a challenge for tribes, conservation groups, private citizens, and agencies working with limited

budgets. The FERC is asking DWR, therefore, to take special care to highlight the key commenting points in the process as they unfold. The FERC also asks DWR to talk to the Tribes about the Communications Protocol to be sure it allows the Tribes to participate fully in the process.

Washington, DC 20426

**DESCRIPTION:** On January 11, 2001, the FERC issued an Order Denying Rehearing and Dismissing Request for Stay to the League to Save Sierra Lakes, et al (League). On August 15, the Director, Division of Environmental and Design Review issued an order authorizing the El Dorado Irrigation District to undertake reconstruction work on a dam associated with its 21-megawatt El Dorado Hydroelectric Project No. 184, which was severely

damaged and rendered inoperable during severe storms several years ago. The League filed timely requests for rehearing and a stay of the Division Director's order, asserting that the Division Director (1) erred by failing to prepare an environmental impact statement (EIS) on the District's amendment application, (2) pre-judged approval of the District's pending relicense application for the project, and (3) interfered with the Forest Service's consideration of the South Fork of the American River as a candidate for inclusion in the federal Wild and Scenic Rivers System. The request for rehearing and a stay is denied and dismissed, respectively.

2001011062	Restoration Plan and Environmental Assessment for Seabirds Injured by the American Trader Oil Spill (RP&EA) Fish & Game HQ -- Multiple Restoration Actions to benefit Seabirds: Roost Site Creation and Enhancement at various locations in Southern California Bight; Restoration of Seabird Habitat on Anacapa Island; Public Education re: seabirds; International (Mexico) seabird protection and predator removal.	<b>FON</b>	02/14/2001
2001011073	CD Activity #26.00.1 Inyokern Senior Center Expansion Kern County --Kern The Inyokern Senior Center Expansion Project consists of the design and construction of a +/- 1,300 square foot addition to the existing Inyokern Senior Center (ISC) on 1.63 acres of land. The ISC is located on the northeast portion of the property with a local County oak occupying the remaining land. The expanded building area will be utilized as a new recreation room for billiards. The County Parks Department storage room will be relocated to the new addition with the existing storage area providing access to the new recreation room. The project also includes landscaping with irrigation, modification to the existing building and parking lot expansion to add 15 spaces on the west portion of the County owned parcel.	<b>JD</b>	02/15/2001
2001014003	San Jose Auxillary Vehicle Maintenance Facility U.S. Postal Service --Monterey Lease of a building, yet to be constructed, for a vehicle maintenance facility. Facility will service UPS vehicles operated in an area bounded by Aptos to the north, Carmel to the west, Hollister to the east and King City to the south.	<b>JD</b>	02/14/2001
1994092022	Revised Midtown Neighborhood Preservation Transportation Plan Sacramento, City of Sacramento--Sacramento The proposed project would remove 3 existing half-street closures (F/16, G/29th, and H/21st), convert 6 existing half-street closures east (E/20th, E28th, F/25th, G/20th, /27th), add a second eastbound approach lane on F Street approaching 16th Street, add a second westbound approach land on H Street approaching Alhambra Boulevard, install 8 new all-way stop sign controlled intersections (e/23rd, E/25th, F/19th, G/27th, H/23rd), and relocate 2 existing stop signs.	<b>NOP</b>	02/14/2001

## CEQA Daily Log

Documents Received during the Period: 01/16/2001 - 01/31/2001

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, January 16, 2001</u></b>			
1999121075	General Plan Update Fillmore, City of Fillmore--Ventura The proposed project is an update of the Land Use and Circulation Elements of the City of Fillmore's General Plan. The Land Use Element addresses the community's vision for development during the planning horizon, identified as the year 2020. It includes a map of proposed urban boundaries and planned land uses (Figure 2). It also contains goals, objectives and policies that will govern the growth of the City of Fillmore and the management of its resources. The Circulation Element contains proposed improvements and policies related to transportation issues, designed to accommodate development anticipated under the Land Use Element. The remaining General Plan elements are not being updated at this time.	<b>NOP</b>	02/14/2001
2001011063	City of Redlands California Street Landfill Expansion Project Redlands, City of Redlands--San Bernardino The CSL operates as a Class III waste management unit as defined in Title 27 of the California Code of Regulations (CCR). Wastes generated within the City of Redlands are disposed of at the active disposal unit. To accommodate waste disposal needs after the active unit has reached capacity, the City is proposing to expand the capacity of the CSL.	<b>NOP</b>	02/14/2001
2001012040	Foothill College Facilities Master Plan Foothill-De Anza Community College District Los Altos Hills--Santa Clara The Foothill College Facilities Master Plan would include expansion of campus facilities and modifications to access and circulation. The Master Plan is intended to accommodate an expected increase in the student population from the existing enrollment of approximately 11,000 total students to approximately 16,000 students in 2010.	<b>NOP</b>	02/14/2001
1999072029	Keith Darrah Use Permit and Reclamation Plan (UP-98-07 / RP-98-04) Siskiyou County Planning Department Mount Shasta--Siskiyou The applicant requests Use Permit approval to allow gravel crushing and washing in association with an approved quarry operation. This proposal would amend the approved permit for the gravel pit (UP-98-07) which did not include the crushing and washing of rock extracted from the site. The addition of the crushing/washing operation would not change the mining Plan of Operations or Reclamation Plan as prescribed under the prior permit.	<b>Neg</b>	02/14/2001
2001011061	Oversize Vehicle Ordinance Calabasas, City of Calabasas--Los Angeles The proposed project would prohibit the operation of oversize vehicles upon any public street within the City limits except by Special Permit. Oversize vehicles are defined in the proposed ordinance as having a gross vehicle weight in excess of fourteen thousand (14,000) pounds. Vehicles performing emergency repairs, merchandise deliveries, or providing public utility services, operating City owned vehicles, passenger busses, garbage or rubbish trucks, private recreational vehicles, or vehicles preempted by the Vehicle Code shall be exempt from the	<b>Neg</b>	02/14/2001

2000042057	2000 Stream Maintenance Project Santa Clara Valley Water District --Santa Clara The bank repair on the east bank involves replacement of 70 feet of bank with anchored long, engineered embankment (130 cubic yards of fill), placement of willow pole plantings at a density of three (3) poles per five (5) feet, and installation of erosion control grasses covered with a coconut fiber geotextile. SAA #R3-2000-0436.	<b>NOD</b>	
2000051014	UCLA Southwest Campus Housing and Parking Project University of California, Los Angeles West Los Angeles--Los Angeles The University of California, Los Angeles proposes to construct a new housing complex to accommodate single graduate, professional, and upper division undergraduate students on an approximately 15-acre site in the southwest zone of the campus. The site is generally bounded by Strathmore Avenue on the north, Gayley/Levering Avenues on the east. Weyburn Avenue and the Rehabilitation Building on the south, and Veteran Avenue on the west. The site accommodates the Taper Center, Warren Hall and surface parking lots. The project would provide approximately 2,000 beds and 2,068 parking spaces in three and four story residential buildings above partially below-grade parking structures. The residential complex would also include ancillary facilities such as common areas for social and recreational functions, an exercise facility, space for workshops and other academic related functions, administrative space, a maintenance shop and a small convenience store. The project would be clustered around a large central plaza with smaller courtyards and open areas for student gatherings. Both phases of construction would total approximately one million gross square feet.	<b>NOD</b>	
2000111149	Landfill Slope Erosion Repair-Paradise Hills Park San Diego, City of San Diego--San Diego Proposal to construct drainage improvements and required slope repair at a closed landfill where solid waste disposed in the mid-1960's is currently being exposed due to stream under cutting. The proposal would grade the 150-foot section of stream bed south of Paradise Valley Road, west of Potomac Street and install rip-rap and gabion structures to channelize and control the stream flow and stabilize the failing landfill slope.	<b>NOD</b>

2000122044	<p>Roseville Recycled Water Distribution System Roseville, City of Roseville--Placer</p> <p>The City is proposing to expand and upgrade its current recycled water distribution system to serve new customers and to facilitate future expansions through installing several miles of pipeline ranging from 16-inch to 12-inches in diameter and constructing a new storage tank and pump station. Recycled water is currently produced at the Roseville Regional Wastewater Treatment Plant at Dry Creek (Dry Creek WWTP). Potential customers with large recycled water demands identified by the City include the city-owned Diamond Oaks Golf Course and the Hewlett Packard (HP) Campus on Foothills Boulevard.</p>	<b>NOD</b>

1999021088	<p>Hotel Del Coronado Master Plan EIR Coronado, City of Coronado--San Diego</p> <p>The proposed project involves a Master Plan for the Hotel del Coronado, identifying all desired facilities and improvements. Development components of the Master Plan include new guest room, Conference Center, main hotel improvements and landscaping, pedestrian, traffic and parking improvements including relocation of the main driveways. Project features are detailed in the Draft EIR.</p>	<b>EIR</b>	03/09/2001
1999091001	<p>Intramural Field Parking Structure University of California, Los Angeles Los Angeles, City of--Los Angeles</p> <p>The UCLA campus proposes to construct a two-level subterranean parking structure to accommodate approximately 1,500 parking spaces in the central campus, under the Intramural Field. Removal of the Intramural Field from use during the approximately 24-month construction phase would result in a significant reduction in capacity for existing recreation and athletic programs that occur on that field. Therefore, a project-specific mitigation measure to maintain recreational program capacity during construction, has been made a condition of the proposed project.</p>	<b>EIR</b>	03/09/2001

2000064009	Auburn Rancheria Trust Acquisition U.S. Bureau of Indian Affairs Lincoln--Placer Trust Acquisition of 49.2 acres for development of a 200,000 square foot gaming and entertainment facility by the Auburn Indian Community. The facility would include a bingo area, casino floor with gaming machines and table games, restaurants, bars, and an entertainment lounge. It would also include a parking area for approximately 3,500 spaces.	<b>FON</b>	02/22/2001
2001011103	Groundwater Banking And In-Lieu Water Supply Project Kern Delta Water District --Kern Kern Delta Water District proposes to develop a groundwater-banking program, with facilities located throughout the northern and central portions of the 125,000-acre District. The purpose of the program will be (1) to enhance water supply management within the District and (2) to provide for storage and subsequent extraction of previously stored supplies provided by third parties. Development of the program will provide opportunities for a variety of these partnerships with both agricultural and urban water agencies.	<b>NOP</b>	02/22/2001
2001012070	Sonora Junction Materials Site EIR Mono County --Mono A DEIR will be prepared to reclaim and operate a disturbance on three acres of a larger 80-acre site. It is estimated that the current three acres of disturbance will be mined to a lower elevation. It is estimated that the mine produces an average of approximately 2,000 cubic yards of material per year. Based on the amount of material used per year, the life of the operation would extend to 2021. The material will be used for various county maintenance needs. The proposed end land use will be material and equipment storage. A botanical and special status wildlife surveys have been conducted on this site. No state or federally listed, proposed, or candidate rare, threatened, or endangered plant species were observed in the project area. In addition, no unique or critical animal habitats were observed on site. There is a wet meadow area to the north of the project area (off site). Additional issues to be evaluated in the DEIR include; noise, dust and erosion control issues and possible impacts to the scenic highway corridor.	<b>NOP</b>	02/22/2001

1998041022	Pier S Marine Terminal Project Long Beach, Port of Long Beach--Los Angeles Development of a marine container terminal on a 176-acre site on Pier S and two nearby areas. Development would include: site preparation; oil well relocation and abandonment; dike realignment and wharf construction; dredging; and construction of operations buildings and a railyard.	<b>NOP</b>	02/27/2001
2001011124	Conditional Use Permit 98099 - Escalon School Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Conditional Use Permit authorizing the expansion of an existing school. Specifically, the applicant is proposing to increase the maximum number of students per day from 125 to 400. Furthermore, a 60' x 24' modular classroom is proposed as well as an addition of 324 square feet of classroom space to an existing building.	<b>NOP</b>	02/27/2001
2001012088	Mad River Water Pipeline Rehabilitation Project Eureka, City of Eureka, Arcata--Humboldt The Mad River Water Pipeline Project generally includes two primary elements: (1) the construction of an additional 24-inch diameter steel pipeline, approximately 20,000 feet long, paralleling an existing 15-inch pipeline on the Samoa Peninsula, in combination with a new pump station at the foot of Truesdale Street in Eureka and approximately 3,000 feet of new 18-inch steel pipeline near Bayshore Mall in Eureka; and (2) the rehabilitation and/or partial relocation of the existing City of Eureka reservoir near Sequoia Park.	<b>NOP</b>	02/27/2001
2001012093	Roselle/Claribel Specific Plan and General Plan Amendment Modesto, City of Modesto--Stanislaus Focused EIR on the proposed 480-acre Roselle/Claribel Specific Plan and General Plan amendment. The project includes annexation and development of 2,400 single-family and/or multi-family dwelling units, 70 acres of new commercial/retail development, and approximately 30-60 acres of parks/open space.	<b>NOP</b>	02/27/2001
2001011114	Orchard Road Widening Project: ED98-219 (C980023E/P12A281) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to widen an approximate 4,900 foot section of Orchard Road in order to provide a center two-way left turn lane and five foot paved shoulders on both sides of the roadway, and to add traffic signals at the intersection of Orchard Avenue at Division Street. The majority of the widening will occur on the northeasterly side of the existing roadway. The widened roadway will more safely accommodate traffic increases that have occurred as the result of growth in the Nipomo area. The area to be widened is located on Orchard Avenue from 700 feet north of Division Street to 800 feet south of Southland Avenue, in the community of Nipomo, in San Luis Obispo County.	<b>Neg</b>	02/27/2001

2001019030	Hemet Valley County Club Estates Hemet, City of Hemet--Riverside CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant. The applicant proposes to construct a tentative tract for 515 single-family lots, 1 clubhouse lot, 2 condo lots, and four lettered lots for a 18 hole championship golf course.	<b>NOD</b>	
2001018310	Office Consolidation Project, Department of General Services - Lease of Existing Building General Services, Department of West Sacramento--Yolo The Department of General Services proposes to approve a long-term lease for approximately 320,000 square feet of office space in an existing, previously-occupied office building in the City of West Sacramento. The approval of the lease will allow for the consolidation of the majority of the offices of the Department currently located in the downtown Sacramento area to a single building. Use of the building by the Department requires only minor interior modifications.	<b>NOE</b>	
2001018314	Grayson Road Bridge At Laird Slough (San Joaquin River) Seismic Retrofit, No. R4-2000-0086 Fish & Game #4 --Stanislaus Agreed work includes activities associated with the seismic retrofit of the Grayson Road Bridge at Laird Park. The project will modify two hinges within the existing bridge by adding hinge extenders. Ten- to twelve-inch cobble rip-rap will also be added as supports pile at bents 8, 11 and 12. Erosion control on the floodplain using clean fill material is also planned. Minimal vegetation in the construction area will be removed and/or trimmed. The flood plain and river channel above the banks full discharge elevation will be changed to prevent erosion in the bridge area.	<b>NOE</b>	
2001018315	Agreement No. R4-2000-0153; Vandalia Irrigation District, Ditch Maintenance Fish & Game #4 Porterville--Tulare The project will clean vegetation from the bottom and banks of a Vandalia Irrigation District ditch to improve flow. The subject ditch is approximately 1,500 feet long and is a historic tributary of the Tule River.	<b>NOE</b>	
2001018316	Agreement No. 4-147-99. Culvert Upgrades Route 49, Mariposa and Tuolumne Counties, EA 0E0801; Notification No. 4-049-00 Fish & Game #4 --Mariposa, Tuolumne The project will upgrade culverts to appropriate size by replacement of existing culverts.	<b>NOE</b>

1999111142	San Dieguito Reservoir Rehabilitation and Flume Replacement Projects Santa Fe Irrigation District Rancho Santa Fe--San Diego The San Dieguito Reservoir Rehabilitation and Flume Replacement projects are two inter-related but independent projects proposed by the Santa Fe Irrigation District and San Dieguito Water District. The two primary elements of the Reservoir Rehabilitation Project consist of dredging to restore the Reservoir's original capacity and creation of new wetland areas to compensate for wetland impacts as well as provide for natural removal of urban runoff pollutants. Upon completion of the rehabilitation, the area of open water would be expanded from 45.05 acres to 48.8 acres and create approximately 640 acre-feet of storage.	<b>EIR</b>	03/15/2001
2001011125	Freeway Upgrade/Interchange Improvements on State Route 71 Caltrans #7 Pomona--Los Angeles Preliminary design features include the construction of a 6-lane facility, which included 2 High Occupancy Vehicle (HOV) Lanes, one in each direction of travel. Also included, as part of this project is the reconfiguration of the Mission Boulevard Interchange on SR-71. Project limits extend roughly from Interstate 10 to State Route 60, a distance of approximately 3 miles. The proposed improvements will enhance safety, relieve congestion, and improve mobility.	<b>JD</b>	02/28/2001

<b><u>Documents Received on Wednesday, January 31, 2001</u></b>			
2000122047	Rehabilitation of DFG Fish Screen Hallwood/Cordua Canal Cordua Irrigation District Marysville--Yuba The CDFG is executing Lake or SAA #R2-605-99 pursuant to Section 1601 of the FGC to the project applicant, Cordua Irrigation District of Yuba County. The agreement pertains to the modifications and upgrade of the existing fish screen located in the Cordua/Hallwood diversion canal from the Yuba River at Daguerre Point Dam. The system will be upgraded for more efficient return of the screened fish to the Yuba River, via larger exhaust pipe, improved concrete structure adjacent to the canal, and larger swale that discharges into the river. An alternative to enlarging the existing swale would be an even larger exhaust to return the screened fish directly back to the Yuba River.	<b>NOD</b>	
2001029001	Outfall Strucutre at Stevens Creek Mountain View, City of --Santa Clara Storm drain and discharge outfall improvement at 775-785 Yuba Drive, Mountain View.	<b>NOD</b>	
2001018328	Clogged Culvert Adjacent To Woods Creek Caltrans #10 Sonora--Tuolumne The clogged culvert is located on the Route 49 off ramp downtown Sonora in Tuolumne County. The proposal is to remove the sediment that has accumulated at the outlet of the culvert. This will be done by excavating a small basin at the outlet, then a vactor will be used to remove the sediment from within the culvert.	<b>NOE</b>	
2001018329	"Belridge II" 8453-2 (030-17827) Conservation, Department of --Kern Drill a development well within the administrative boundaries of an oil and gas field. The well will be compatible with existing land use.	<b>NOE</b>
